PROFESSIONAL SUMMARY

Product Experience Designer with experience designing SaaS, CRM, logistics, e-commerce and fintech products. Strong at simplifying complex workflows, structuring information and building scalable UI systems, and at working with product managers, developers and stakeholders to turn business requirements into functional digital experiences.

EXPERIENCE

Growve Logistics — Product Experience Designer Oct 2025 – Present

- **RedFoxCourier:** Ideated and designed a fully functional CRM based on RedFox's backend and operational workflow, covering customer and shipment workflows, verification, item details, weight and dimensions, payment and post-payment operational stages.
- **RedFoxCourier:** Designed the landing page and lead-generation flow.
- **Growve CRM:** Reworked the internal CRM, improving workflow structure, functionality and UI consistency so users can navigate and complete operational workflows more easily.
- **Growve Design System:** Created an internal design system to standardize and scale UI across multiple internal projects: color and design tokens, typography, spacing, reusable components (buttons, forms, tables), Figma variables and documentation.
- **Walherb:** Designed the landing page for an e-commerce site selling childcare supplements and healthcare products. Collaborated with the Product Manager and developers to deliver on time, and used Figma and Claude to build a functional site from the design (walherb.vercel.app).
- **Growve Logistics website:** Designed a logistics landing page with a focus on visual hierarchy and clear product and service communication.
- **Veltora (ongoing):** Designing the landing page for a travel-bag product, focused on product presentation, visual storytelling and conversion.
